

Let us take the headache out of your compliance program.

We at HBE Advisors are here to take the stress out of keeping your organization in compliance. Our nationally recognized coding and compliance experts have more than 40 years of healthcare experience and have served over 750 clients across 40 states, from some of the nation's largest healthcare fraud and abuse cases to ongoing compliance program services and audits.

Routine Compliance Services

The financial and reputational risk to providers for non-compliance with healthcare rules, regulations, and guidelines is too great to measure. We provide a full spectrum of coding and compliance services to hospitals, physician practices, durable medical equipment providers, and third-party billing companies to provide your organization with invaluable assistance at every step in the process.

Audit and Investigative Services

Conducting audits and investigations is an inherent component of any effective compliance program. What's more, given the complexities of healthcare regulations, you need subject-matter experts who can assist you with solving complex coding and compliance issues that may affect your entire organization. We routinely perform documentation, coding, and coverage audits to get you the answers you need.

Building Lasting Partnerships for Success

In the rapidly changing world of healthcare, you can rely on our integrity, experience, and commitment to excellence. We are here to take away the stress of maintaining compliance. We strive to understand the uniqueness of each organization which allows us to custom tailor our approach to ensure our clients receive meaningful results from a partner they can trust.

www.HBEAdvisors.com

At HBE we have a passion for ensuring that our clients get the best possible results from all the work we do. To make that happen, every member of our team works hard to stay up to date on the very latest in coding and compliance regulations in order to help you make the important decisions that make or break your organization's success.

When you work with HBE our promise to you is this:

We value your time and resources.

We put forth maximum effort to ensure that our work meets your organization's needs and exceeds your expectations.

We have built our reputation on the superior quality of our work, our responsiveness, and treating every client with the highest level of respect and appreciation.

We regularly handle both small projects as well as large, multi-year contracts. Regardless of project size, we will work hard to remain your trusted partner in ensuring your organization's compliance.

We always work to both reduce risk and also identify areas of opportunity and best practices to help you better fulfill your organizational mission.

We pride ourselves on developing efficient, affordable solutions customized to your unique specifications. There is no place for a cookie-cutter approach in the complex world of compliance.

We are focused on building a trusting, collaborative working relationship with you whether we work with you short-term or over the longer haul.
